Ilmi, Azzahra Nikmatul 2019. The Effect of E-Commerce Use on the Quality of Accounting Information Systems for MSME Actors in Kendari City. Thesis. Accounting Department, Faculty of Economics and Business, Halu Oleo University. Mentors: (1) Muntu Abdullah, (2) Sulvariany Tamburaka

This study aims to determine the effect of the use of E-Commerce on the quality of Accounting Information Systems for SMEs in Kendari City to be able to improve the management of quality Accounting Information systems. The study was conducted with a quantitative method to Micro and Small and Medium Enterprises entrepreneurs who also implemented an online trading system or E-Commerce in Kendari City and consisted of 30 samples taken using a purposive sampling method. Data obtained using primary data conducted by distributing 30 questionnaires and secondary data through library research, the data collected was then tested using Simple Linear Regression.

Based on the results of the study, it can be concluded that there is an influence of the Use of E-Commerce on the Quality of Accounting Information Systems, which means that if there is an increase in the use of E-Commerce, the quality of the Accounting Information System will also increase.

Keywords: E-Commerce, Quality of Accounting Information Systems, Micro, Small and Medium Enterprises
